

## TECHNICAL CHARACTERISTICS OF PRODUCT

The characteristics of the product specified in this technical report meet the specification and test methods according to norm ASTM requirements.

### PRODUCT SPECIFICATION

<b>Reference</b>	<b>VELVET 45X90#</b>
<b>Product Code</b>	8035590
<b>Nomimal Size (N)</b>	45 cm x 90 cm
<b>Work Size (W)</b>	450 mm x 902 mm
<b>Thickness</b>	12,0 mm
<b>Water Absorption</b>	BIII (>10%)
<b>Shade Variation</b>	V1
<b>Application Joint</b>	1,0 mm
<b>Coverage Area</b>	1,62 m <sup>2</sup> /cx
<b>Number of pieces per box</b>	4

### PHYSICAL PROPERTIES

Breaking strength (lbf)	≥ 125
Water Absorption (%)	10-20

### CHEMICAL PROPERTIES

Chemical Resistance	Class A
Stain Resistance	Class A

Eliane S/A Revestimentos Cerâmicos

Rua Maximiliano Gaidzinski 245  
88845-000 Cocal do Sul - SC - Brasil

**Attention:**

- Sand may produce scratches on any type of surface covering (stone, wood, vinyl or ceramic tiles). Therefore, ceramic tiles are not warranted against scratches, especially concerning glossy surface products.
- Special care is recommended during the application and its use
- In residential areas, we recommend to protect the base of furniture and appliances.
- Product manufactured by the wet process.
