Round Mirror

Care instructions

- All mirrors and shavers must not be cleaned with a highly abrasive cleaning product containing abrasive materials and/or chemicals (including but not limited to ammonia and bleach).
- All mirrors and shavers must not be cleaned with window cleaners. This may cause the mirror to de-silver (black marks forming on mirror).
- All mirrors and shavers must be cleaned with a micro-fibre cloth and warm water.
- All mirrors and shavers must have reasonably good ventilation. Forme advises that IXL should be installed and operation whilst steam in bathroom as well as window left fully open.
